

# POWER SUPPLY CAPABILITIES

- Low design & development costs
- Low risk, proven technology leader
- World class design and manufacturing
- Rapid time-to-market
- Dedicated engineering support
- Low-cost / high-volume manufacturing

**SUDTECH**

YOUR ODM / OEM POWER SUPPLY PARTNER

# Your Source for the Uncommon Power Supply

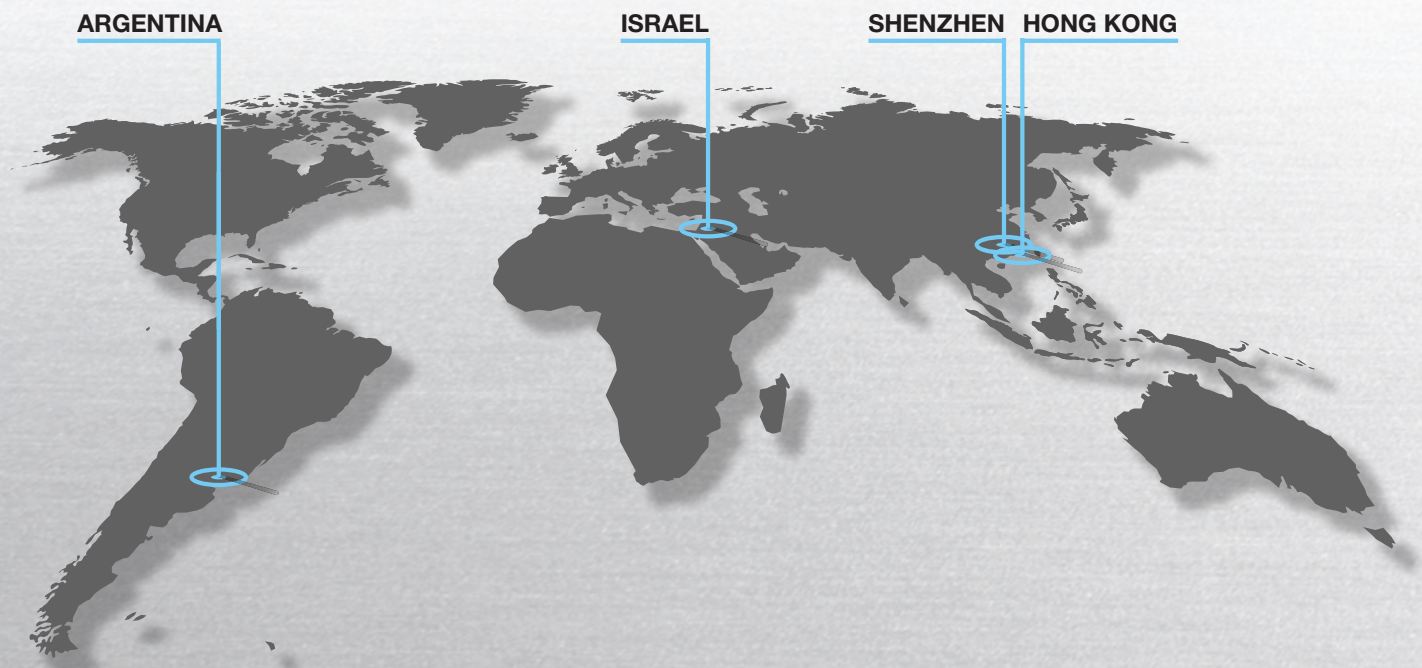

Sudtech Ltd. is an OEM / ODM power supply manufacturer that delivers a diverse range of power products. Managed by seasoned power supply engineers, Sudtech is poised to rapidly deliver power supply solutions to meet your power requirements and improve system-level integration and performance.

Established in 2001 with Headquarters in Hong Kong, Sudtech offers dedicated design, prototype, qualification and manufacturing for medium~high volume applications. Building power supplies specifically to fit each application, we can optimize the balance between price and performance to deliver the most cost-effective solution.

Sudtech's power design capabilities include:

- Wall Mount and Desktop Products - custom voltages, connectors, isolation, insulation, packaging . . .
- Open Frame Products - footprints, connectors, harnessing, status, control, optimized thermals . . .
- Battery Charging Products - battery interface, UPS operation, speed or float charging, and more. . .
- LED Power Suppliers - 90~305VAC, metal or plastic enclosures, dimming control, IP protection . . .
- Value Added - metal or plastic enclosures, EMI filters, harnessing, connectorization, control circuitry . . .

Sudtech can design your power supply from scratch or adapt from an existing design that can be tailored electrically, thermally and mechanically to best fit your application. Sudtech is an ISO 9001:2015 qualified company to ensure the quality and consistency of its products.

## Capabilities

### Engineering

- 12 Electrical Engineers on staff
- 30 years of power supply experience
- Advanced Communication Tools

### Engineering Specialties

- High-Density / High-Efficiency Technologies (Flyback, Forward LLC Half-Bridge, Full-Bridge)
- Analog Status & Control
- I<sup>2</sup>C / PMBus / RS232 Interface
- Battery Management

### Mechanical Engineering

- 3D Modeling
- Thermal Analysis
- Plastic / Injection Molding
- Sheet Metal / Enclosures
- Blind-Mate / Hot-Swap
- Back Plane

### Compliance Engineering

- In-System Functional Test
- Turnkey EMI / EMC Certification
- Turnkey Safety Certification
- IP / NEBS / ETSI Compliance
- HALT / HASS Integrity Testing

### Design Tools:

- Solidworks
- PADS Power PCB
- OrCAD Schematic Capture
- Ansys Thermal Modeling

### Prototyping

- Rapid Manufacturing
- Document Manufacturing Process
- Improved Manufacturability
- Design Verification

### Manufacturing Equipment:

- Wave Solder Machine
- Reflow Solder Machine
- SMT Machine
- AI Machine
- Manual insertion production line
- Potting Machine

### Facilities

- 93k sq. ft. Manufacturing Facility
- 1/3 capacity (400k pcs per month)

### Test Equipment

- Hi-pot
- ATE
- Burn-in chambers
- PCB AOI
- Power Meter
- Electrical Load
- Oscilloscope

### Qualifications

- ISO 9001:2015
- UL Recognized
- TUV Recognized
- CCC Recognized
- CSA Recognized
- KC Recognized

Waterproof power supply / battery charger for robotic swimming pool cleaners. Portable design fits on carrying cart and easily removed for ease of use.

## External Power Supplies (Wall Mounts / Desktops)

10 watt / 5.3V power supply with extended temperature range for high reliability performance of a home security device

30 watt wall mount adapter with Level VI efficiencies and custom output voltage

15 watt wall mount adapter with Level VI efficiencies and custom output voltage

## LED Lighting Power Solutions

8 watt LED driver for E8 light bulb manufacturer integral dimming control with 90% efficiency

56 watt LED driver designed for indoor applications 90~134V output / constant current with 94% efficiency

100 watt LED driver for street lighting application active power factor correction IP67 rated

## Open-Frame / Embedded Power Supplies

1000 Watt Telecommunications Power Supply  
for Embedded Application / 1U Height

Universal AC Input with Active PFC  
48V @ 20A Output @ 92% efficiency  
Current Sharing for Redundant Operation

9 watt / 5V power supply  
drives system & battery charging circuit  
for mobile weight scale application

20 watt / 12V power supply  
with 450% peak load capability  
EMI enhanced for compatibility with  
wireless home security circuits

20 Watt PCB mount power supply  
for Cable Box Application  
ErP Ready and Level VI efficiencies  
with reduced EMI signature

1200 watt | quad output  
railway control equipment  
80% efficiency and  
EN50155 approved

69 watt continuous / 28 watt peak  
for supermarket POS system  
with integrated scale & thermal printer

26 watt dual output  
satellite TV receiver  
custom voltages

70 watt continuous / 220 watt peak  
quad output power supply with  
battery management circuitry  
for supermarket POS system  
including integrated scale & thermal printer

24 watt single output  
satellite TV receiver  
small footprint  
affixed wire harness

15 watt dual output USB charger  
for AC power strip  
universal AC input and  
78% efficiency

## Caged / Enclosed Power Supplies

84 watt continuous / 300 watt peak  
dual output power supply  
for supermarket POS system  
with integrated scale & thermal printer

120 watt  
electric wheel chair  
EAD / acid battery charger

168 watt 14V power supply  
to power security system  
with battery management circuits  
full load operation up to 70°C

720 watt  
recreational vehicle  
EAD / acid battery charger

1200 watt  
recreational vehicle  
EAD / acid battery charger

72 watt embedded LED driver  
universal AC input with PFC  
12V constant current operation

72 watt / 24V output power supply  
for closed circuit television application  
with On/Off switch and  
field replaceable fuse

10 watt dual output USB charger  
for mounting inside an AC socket  
78% efficient design inside a snap  
together injection molded case

40 watt triple output DC/DC converter  
30-60V<sub>IN</sub> with 5 / 3.45 / 2.25 V<sub>OUT</sub>  
85% efficiency with integral heatsink for  
extended operating temperature
